SOFTWARE DEVELOPMENT PROJECTS

City of Refuge | **Github** | **Express** | **Sequelize** | **HTML** | **CSS**   *October, 2023*
- Collaborated with developers using Agile methodologies at a Hackathon event hosted by City of Refuge, involving an 8 hour sprint, to develop a fully functional mentor-mentee portal.

FlixFinder | **Github** | **React** | **Javascript** | **HTML** | **CSS**   *September, 2023*
- FlixFinder is a versatile online platform designed to streamline a user's entertainment search. With just a keyword, it compiles a comprehensive list of movies, TV shows, and video games relevant to your search term, making it easy to discover your next favorite entertainment option.

AdventurePacker | **Github** | **React** | **Javascript** | **HTML** | **CSS**   *September, 2023*
- AdventurePacker is a web-based to-do list application designed to help users plan and organize their adventures and travel plans. It offers a set of key features, including adding, updating, and deleting tasks or items in the list, making it a versatile tool for trip planning and task management.

SnuggleReads | **Github** | **SQL** | **EJS** | **Javascript** | **Jira** | **Sequelize** | **Express**   *August, 2023*
- SnuggleReads is a user-friendly and comprehensive website designed for book enthusiasts who want to keep a record of their reading journey. This platform offers a book catalog that enables users to organize, track, and explore their literary adventures effortlessly.

WORK EXPERIENCE

CentricsIT   **Norcross, GA**
Procurement Analyst   *July 2022 – February 2023*
- Managed major vendor accounts such as Dell and Asus and developed vendor relations which resulted in a 75% increase in processes and eliminating the backlog orders.
- Reviewed billing reports, processed TPM invoices, and ensured rate compliance. Organized time and material cases with 100% accuracy, enhancing operational efficiency and financial compliance.
- Analyzed extensive transactional data with meticulous attention to detail, resulting in a 99.9% accuracy rate in reconciling general ledger accounts within Microsoft Navision.
- Coordinated with vendor management in contract negotiations and efficiently recorded journal entries, cash receipts, asset retirements, and project setup details, which streamlined operations and improved financial accuracy.

CompCare Therapeutics Inc.   **Lakewood, NJ**
Behavioral Specialist   *Sept 2021- July 2022*
- Created weekly action plans to implement specific strategies for developmentally delayed children.
- Conducted home-based developmental interventions and one-on-ones with children ages 1 to 3 and advised parents on techniques and strategies to facilitate progress.
- Administered standardized tests to measure progress and efficiently handled 15-20 cases/accounts weekly, showcasing strong multitasking and problem-solving skills across multiple locations.
